ASSOCIATION OF OIL, GAS
AND RENEWABLE ENERGY
COMPANIES OF LATIN AMERICA
AND THE CARIBBEAN

We are driving the transformation of the O&G sector, to enable energy transitions in our region

VISION

To be a regional reference in strengthening the industry as a provider of sustainable energy that contributes to the energy transition.

MISSION

To promote the integration, operational excellence and sustainable development of the oil, gas and renewable energy industry in the region, through cooperation among members and collaboration with its main stakeholders.

1965

State-owned oil and gas companies

1998

Regional oil and gas operating companies

2010

Oil, gas and biofuels sector companies

2022

Oil, gas and renewable energy

STRATEGIC VECTORS

31

Operating and Service provider member companies - Public and Private

Operating in more than

30

Countries in Latin America and the Caribbean

How we work

11 Technical Committees

Official languages

Exploration and Production

Pipelines and Terminals

Refining and Fuels

Gas and Energy

Energy Transitions

Environment, Health and Safety

Sustainable Management

Industrial Cybersecurity

Digital Transformation

Human Talent and Knowledge Management

Communications

Value Proposition

1. We provide a forum for the exchange of knowledge and experiences

on operational and management issues among our member companies. We offer assistance to our partners to solve specific problems through various means, in addition to developing a comprehensive training program tailored to their needs.

2. We have direct relationships with governments

in the Region and are recognized as the only organization for the development of the oil and gas industry in Latin America and the Caribbean. Over the years, we have established a solid collaboration scheme with Hydrocarbon Agencies and with OLADE.

Value Proposition

3. We are the only regional link between international and national business associations.

Furthermore, we coordinate a collaborative international network of specialized professional and industry associations.

4. We drive and support our partners' initiatives in adapting to the new business scenario related to energy transitions.

1. Forum for the exchange of knowledge

Web library Free-access for our members

More than 300 documents.

Guidelines and manuals on best practices, studies and white papers.

Tool to evaluate oil spills response programs (RETOS™)

Training courses and implementation

Implementation of best practices in member companies.

Mutual Technical Assistance; Training courses; Benchmarking; Virtual and in-person workshops.

Innovarpel 2025
