# VALUE PROPOSAL

1.

We provide a **forum for the exchange of knowledge and experiences** on operational and management issues among our member companies. We provide assistance to our members to solve specific problems through different means, in addition to developing a comprehensive training program tailored to their needs.

2.

We have **direct relationship with governments in the Region** and we are recognized as the only development organization for the oil and gas industry in Latin America and the Caribbean. Over the years, we have created a strong collaborative approach with the Hydrocarbon Agencies.

3.

We are the **only regional articulator** between the international and national industry associations. We also coordinate a **collaborative international network** of specialized professional and industry associations.

4.

We support our members' initiatives in their **adaptation to the new business scenario** related to **energy transitions**.
